

SILURON 5000

More information:
www.fluoron.de

Reliable homogeneity

Good long-term tolerance

High viscosity of 5000 mPas

Siluron is used as a long-term tamponade in the treatment of severe retinal detachments, in particular in cases involving:

- Giant tears
- Proliferative vitreoretinopathy (PVR)
- Proliferative diabetic vitreoretinopathy (PDR)
- Traumatic retinal detachment
